Kritik und Design Katrin Brümmer, Friedrich Weltzien, 2024-11-22 Der Begriff der Kritik ist ambivalent: Während im Alltagsgebrauch damit meist ein negativ konnotierter, besserwisserischer oder sogar übergriffiger Kommentar assoziiert wird, ist Kritik in der Philosophie eine Grundvoraussetzung für die Freiheit des einzelnen Menschen: Nur wer sich und seine Umwelt kritisch reflektiert, kann eine freie Entscheidung treffen. Aber wie verhält es sich mit Kritik im Design? Seit den 1970er Jahren haben sich hier kritische Praktiken etabliert, die mit aktivistischen Methoden und Strategien arbeiten. Die Beiträger*innen analysieren die Definition von Kritik im Design als Haltung, Methode, Prozess, Moment oder Form – denn indem sie verändert, eingreift und nach Neuem sucht, gestaltet Kritik Design schon immer.

This Is So Awkward Cara Natterson, MD, Vanessa Kroll Bennett, 2023-10-10 NATIONAL BESTSELLER • The ultimate guide for adults helping tweens and teens navigate the rollercoaster of puberty. “An accessible, enjoyable, and detailed road map for addressing even the most delicate topics with confidence and compassion.”—Lisa Damour, PhD, author of *Untangled*, *Under Pressure*, and *The Emotional Lives of Teenagers* Almost everything about puberty has changed since today’s adults went through it. It starts, on average, two years earlier and stretches through high school . . . and for some, beyond. Gen Z and Alpha are also contending with a whole host of thorny issues that parents didn’t experience in their own youth but nonetheless need to understand: everything from social media and easy-access pornography to gender identities and new or newly-potent drugs. Talking about any of this is like puberty itself: Awkward! But it’s also critical for the health, happiness, and safety of today’s kids. Bewildered adults have begged for reliable and relatable information about the modern adolescent experience. *This Is So Awkward* answers their call. Written by a pediatrician and a puberty educator—together the hosts of a lively and popular podcast on puberty, and moms to six teens between them—this is the handbook everyone has been searching for, and includes:

- Pointed advice about how to talk to kids about almost anything: acne, body odor, growth spurts, eating disorders, mood swings, sexuality, and more.
- Science-based explanations for all of puberty’s physical, emotional, and social changes, including the many ways hormones affect kids both above and below the neck.
- What adults need to know about today’s teen culture: their mental health drivers, the un-gendering of body image issues, the ways they

think about sexual orientation, and more. • Invaluable commentary straight from young adults just out the other side of adolescence that highlights what they wish the adults in their lives had known or done differently. Eye-opening and reassuring, *This Is So Awkward* will help adults understand the turbulent pubescent decade and become confident guides for today's kids.

Menschen und Heroen Felix Müller, 2016-02-22 Ahnenkult und seine gesteigerte Form Heroenkult sind in den antiken Kulturen der Mittelmeerwelt eine bekannte Erscheinung und gut untersucht. Schriftliche Überlieferung und archäologische Ausgrabungsbefunde sind die reichlich fließenden Quellen. Nördlich der Alpen sind Ahnen- und Heroenkult jedoch kaum bekannt bzw. kein Forschungsthema, obwohl von zahlreichen Gräbern und einem differenzierten Bestattungswesen ausgegangen werden könnte. Es muss sich demzufolge um eine Forschungslücke handeln. In der vorliegenden Arbeit werden wichtige Merkmale des mediterranen Ahnen- und Heroenkultes herausgearbeitet und den archäologischen Befunden nördlich der Alpen gegenüber gestellt. Dabei wird eine retrograde Vorgehensweise beschrrieben – im chronologischen wie im erkenntnistheoretischen Sinne: Der Weg führt vom Bekannten zum Unbekannten. Analogieschlüsse werden zwischen lokal- und zeitnahen Kulturen gezogen. Unter diesem Gesichtspunkt betrachtet stellt sich auch erneut die Frage, ob das Bestattungswesen religiös oder soziologisch begründet ist und inwiefern es lebende Gesellschaften reflektiert.

Keeping the Victorian House Vanessa D. Dickerson, 2016-07-01 First published in 1995. The essays in this volume demonstrate how Victorian women took up various positions along a continuum that ranged from the desire of Shelley's creature for the power and acceptance it associated with the house to the rejection of Brontë's heroine of the immobility and powerlessness she ultimately experienced there. More specifically the essays in this volume explore the nature of the Victorian woman's domestic relations by centring in one activity that most informed her place in what was often the father's house: housekeeping. The essays in this edition determine how writers, especially novelists, both male and female, used housekeeping to construct, reconstruct, represent, and inscribe the female self and condition. This title will be of interest to students of history and literature.

An Experience of Finland William Richard Mead, 1993 In this very personal book, Mead explains on the basis of more than half a century's experience how his interests in Finland developed in parallel with its transformation from a pre-war agrarian economy to a modern welfare state with an advanced technological base.

The City and the Senses Dr Alexander Cowan, Dr Jill Steward, 2013-06-28 How do we experience a city in terms of the senses? What are the inter-relations between human experience and behaviour in urban space? This volume examines these questions in the context of European urban culture between the fifteenth and twentieth centuries, exploring the institutions and ideologies relating to the range of sensual experience and its interpretation. Spanning pre-industrial and modern cities in

Britain, France, Germany and the United States, it enables the reader to establish major contrasts and continuities in what is still an evolving urban experience. Divided into sections corresponding to the five senses: noise, vision, taste, touch and smell, each sections allows for comparisons which act as reminders that the experience of the city was a multi-sensual one, and that these experiences were as much intellectual as physical in their nature.

Supply Chain Management and Logistics in the Global Fashion Sector Rajkishore Nayak,2020-11-12 The ways in which we design, make, transport and then discard clothes has a huge social and environmental impact. This book covers responsible business practices and sustainability in the fashion industry from the raw fibre stage, through production, to the point of customer consumption. The concepts of responsibility and sustainability are fast becoming essential factors in business decisions and Supply Chain Management and Logistics in the Global Fashion Sector leads the reader through the multiple stages in the supply chain that can impact on business strategy. A perfect resource for students studying fashion and for those working in the sector who wish to identify the latest thinking as they plan sustainability strategies, the book is divided into four clear sections. Part I of the book examines sustainability in the supply chain by identifying the three pillars of sustainability (social, economic and environmental) and considers how fashion brands are innovating in this area. Part II looks at fashion logistics and supply chain operations by assessing fibre, yarn and fabric considerations, logistical issues for both garment production, and service delivery, stock control, transportation, barriers and risks. Part III develops the logistics theme further by identifying recent trends and case studies that highlight agility and lean management structures, and the application of transparency enhancing radio frequency identification (RFID). This section further applies modelling and simulation techniques from the automotive and pharmaceutical industries to the fashion sector. Part IV considers how sustainability can be embedded into the multi-tiered fashion supply chain and its selling environment.

Transforming Early English Jeremy J. Smith,2020-04-30 Considers how medieval English and Scots texts were re-worked in later centuries, and the implications for philological theory and practice.

Infertility and Non-Traditional Family Building Rebecca Feasey,2019-07-26 This book examines the representation of infertility, assisted reproduction, miscarriage, adoption and surrogacy in a wide range of media, including blogs, vlogs, social media posts and factual programming. In so doing, it illustrates how pregnancy loss, involuntary childlessness and non-traditional mothering are being depicted across the media landscape. Whilst the topic of motherhood has emerged as a significant area of academic debate, narratives of unsuccessful or unconventional mothering have remained largely absent, even at a time when there is a growing conversation about infertility online. Timely, pertinent and original, the book demonstrates the importance of a broader and more informed cultural discussion about fertility and family building.

Sources of London English Laura Wright,1996 The macaronic (mixed-language) business texts of London for the period 1275 to 1500 present a rich source of evidence for the medieval dialect of London English. Hitherto they have been ignored

because of mistaken ideas about their value, but Laura Wright offers a reassessment of their importance in the development of the English language. The book focuses on terminology surrounding the River Thames to present a study of the medieval dialect of London. The vocabulary survey lists many words which had previously been lost to us, and the illustrative extracts from the texts present a fascinating picture of life in medieval times on the River Thames. The author's analysis covers the orthography, phonology, and morphology of the dialect as revealed in these texts.

Urban Food Systems Governance and Poverty in African Cities Jane Battersby, Vanessa Watson, 2018-08-22 As Africa urbanises and the focus of poverty shifts to urban centres, there is an imperative to address poverty in African cities. This is particularly the case in smaller cities, which are often the most rapidly urbanising, but the least able to cope with this growth. This book argues that an examination of the food system and food security provides a valuable lens to interrogate urban poverty. Chapters examine the linkages between poverty, urban food systems and local governance with a focus on case studies from three smaller or secondary cities in Africa: Kisumu (Kenya), Kitwe (Zambia) and Epworth (Zimbabwe). The book makes a wider contribution to debates on urban studies and urban governance in Africa through analysis of the causes and consequences of the paucity of urban-scale data for decision makers, and by presenting potential methodological innovations to address this paucity. As the global development agenda is increasingly focusing on urban issues, most notably the urban goal of the new Sustainable Development Goals and the New Urban Agenda, the work is timely. Language Policy in Higher Education F. Xavier Vila, Vanessa Bretxa, 2014 In today's increasingly interconnected,

knowledge-based world, language policy in higher education is rapidly becoming a crucial area for all societies aiming to play a part in the global economy. The challenge is double faceted: how can universities retain their crucial role of creating the intellectual elites who are indispensable for the running of national affairs and, at the same time, prepare their best-educated citizens for competition in a global market? To what extent is English really pushing other languages out of the academic environment? Drawing on the experience of several medium-sized language communities, this volume provides the reader with some important insights into how language policies can be successfully implemented. The different sociolinguistic contexts under scrutiny offer an invaluable comparative standpoint to understand what position can - or could - be occupied by each language at the level of higher education.
