Soviet Commercial Operations in the West United States. Central Intelligence Agency,1977

Russian Involvement in Eastern Europe's Petroleum Industry Adnan Vatansever,2005 This report answers questions such as: as one of the largest foreign acquisitions by a Russian company occurred in Bulgaria, what lessons are applicable to charting future Russian downstream takeovers? Why have Eastern Europe and Western FSU countries been the primary focus of Russian acquisitions? What drives LUKoil (and other Russian oil companies) to pursue acquisition of assets in these regions? Finally, what is the stance of the Russian government in terms of promoting such acquisitions abroad? This series of reports establishes for the first time the confluence of Russian foreign policy with the acquisition of foreign energy assets by Russian entities. Nine specific country profiles focus on the oil, gas, electricity and nuclear power industries. Each report written by an author of international standing, explains how Russian foreign energy downstream mergers and acquisitions are transpiring to consolidate the new Russian empire.

The Enigma of Soviet Petroleum Marshall I. Goldman,2023-06-14 The Enigma of Soviet Petroleum (1980) provides an analysis of the relevance of the Soviet planning system to oil production levels: why it is that planning has been the source of so many petroleum industry problems, and the nature of the measures that are being taken to overcome them. It looks at the demand for petroleum in the USSR, and the discovery of new Soviet oil fields to furnish this demand.
